## 1. Introduction

The document is a User Guide for extension **Enhanced Polls** created for Magento websites. It describes the extension functionality and provides some tips for a quick start.

The extension official page – <https://www.itoris.com/magento-view-more-products.html>

The purpose of the Enhanced Polls extension for Magento is to replace standard Magento polls with visual diagrams. There are 3 predefined templates for each poll with animated results. The polls are submitted via AJAX, no page reloading.

## 2. Installation

### 2.1. System Requirements

The extension works under Magento from 1.4.x and higher.

The extension works with Apache 1.3.x and higher, PHP 5 or higher, Linux or IIS.

### 2.2. Installation

Download the extension installation zip package from your account at <https://www.itoris.com/> and unpack it to the root of your Magento site by (S)FTP. Then flush cache in your Magento backend following **System > Cache Management**.

### 2.3. License

Please find the license agreement at <https://www.itoris.com/magento-extensions-license.html>

## 3. How to Use

### 3.1. General Settings

The general settings are available following **System > ITORIS Extensions > Enhanced Polls**.
