1. Introduction

The document is a User Guide for extension **Advanced Product Grid** created for Magento2 websites. It describes the extension functionality and provides some tips for a quick start.

The purpose of the [Advanced Product Grid extension for Magento 2](https://www.itoris.com/magento-2-product-grid.html) (<https://www.itoris.com/magento-2-product-grid.html>) is to allow to edit product attributes directly on the product grid.

While updating products in Magento you have to perform many additional actions. Advanced Product Grid will save your time. The extension allows to edit product attributes directly in the products' list. Now you are able to edit product attributes faster without any redirects and unnecessary actions. Moreover, you can edit product images and videos without redirects.

Also you can edit multiple attributes all together. The background AJAX handles this perfectly. Hot keys make editing smooth. The extension allows to reorder columns, enable or disable attribute columns.

2. Installation

2.1. System Requirements

The extension requires Magento 2.x

2.2. Installation

The extension is provided as a .zip archive with the source code and the installation instructions.

Unpack the source code into **/app/code/Itoris/Itoris_ProductGrid /** folder on your server. And run the following commands in the SSH console:

```
php bin/magento module:enable --clear-static-content Itoris_ProductGrid  
php bin/magento setup:upgrade
```

Then log into Magento backend and flush cache in **System -> Cache Management -> Flush Magento Cache**

If you experience any issues with the extension installation please contact us here -

<https://www.itoris.com/contact-us.html>

2.3. License

The extension has full open source code. One license/purchase can be used on a single production Magento2 website and its development instances. The extension can be customized for the license owner needs. Redistribution of the extension or its parts is not allowed. Please read more details here -

<https://www.itoris.com/magento-extensions-license.html>

3. How to Use

3.1. Activation

You can enable or disable the extension following **STORES -> Settings -> Configuration -> ITORIS EXTENSIONS -> Advanced Product Grid -> Extension Enabled - Yes/No**

The screenshot shows the 'Configuration' page in the ITORIS system. On the left sidebar, the 'STORES' menu is highlighted, and the 'Advanced Product Grid' option is selected. The main content area shows the 'General' settings for the 'Advanced Product Grid' extension. The 'Extension Enabled' dropdown menu is open, showing 'Yes' as the selected option. A red box highlights the 'Yes' option in the dropdown. The 'Save Config' button is visible in the top right corner.

3.2 Product Attributes

Once the extension has been enabled, standard product management is substituted with advanced product grid. To edit products, please, go to **Products -> Inventory -> Catalog**

The screenshot shows the 'Products' page in the ITORIS system. The left sidebar has the 'PRODUCTS' menu highlighted, and the 'Catalog' option is selected. The main content area displays a table of products with columns: Name, Type, Attribute Set, SKU, Price, Quantity, Visibility, Status, Websites, and Action. The table shows 2051 records found. The 'Catalog' view is selected, and the 'Add Product' button is visible in the top right corner.

24-MB02	Simple Product	Bag	24-MB02	\$59.00	100.0000	Catalog, Search	Enabled	Main Website	Edit

3.2.1 Inline Editing

The extension allows to edit products' attributes and properties directly on the list without redirects.

Hot keys make editing easier. For instance, by clicking "Enter" you update the current attribute and navigate to the next product. By clicking key "Escape" you cancel your current changes.

To select attributes you want to see in the list click "Columns" or uncheck attributes to hide them from the table.

3.2.2 Edit Product Images and Videos

The extension allows to add, remove, or edit product images or videos directly on the products' list without redirects.

Choose a product in the "Thumbnail" column. After the popup appears you will be able to upload pictures and videos faster than Magento does.

3.2.3 Attribute Columns

There are several types of attributes that can be easily updated from the grid.

1. **The multi-select attribute** – the extension allows to edit multiple attributes together. To select multiple attributes, hold down the "Ctrl" key and choose necessary ones.
