## 1. Introduction

The document is a User Guide for extension **Product Attachments** created for Magento2 websites. It describes the extension functionality and provides some tips for a quick start.

The Product Attachments extension for Magento 2 is aimed to attach files of different formats to products. You are able to upload custom files' icons, choose files from the repository and apply to product(s) within the whole store or per store view.

The additional column available on the product grid simplifies file uploading as you no longer need to open each product page for editing. If your products require the same attachments, the extension provides a useful mass action tool allowing to copy necessary files from one product and apply to multiple products in bulk.

Each product has the "Product Attachments" section allowing to add an unlimited number of files, specify customer groups, change the files' positions, pick up files from the repository, create attachments via URL addresses and other advanced settings.

The "Downloads" tab appears on products pages automatically if admin creates attachments for the products. You can make hidden files available for customers if a product is purchased only.

## 2. Installation

### 2.1. System Requirements

The extension requires Magento 2.x

### 2.2. Installation

The extension is provided as a .zip archive with the source code and the installation instructions.

Unpack the source code into **/app/code/Itoris/Itoris\_ProductAttachments/** folder on your server. And run the following commands in the SSH console:

```
php bin/magento module:enable --clear-static-content Itoris_ProductAttachments  
php bin/magento setup:upgrade
```

Then log into Magento backend and flush cache in **System -> Cache Management -> Flush Magento Cache**

If you experience any issues with the extension installation please contact us here -

<https://www.itoris.com/contact-us.html>

### 2.3. License

The extension has full open source code. One license/purchase can be used on a single production Magento2 website and its development instances. The extension can be customized for the license owner needs. Redistribution of the extension or its parts is not allowed. Please read more details here -

<https://www.itoris.com/magento-extensions-license.html>

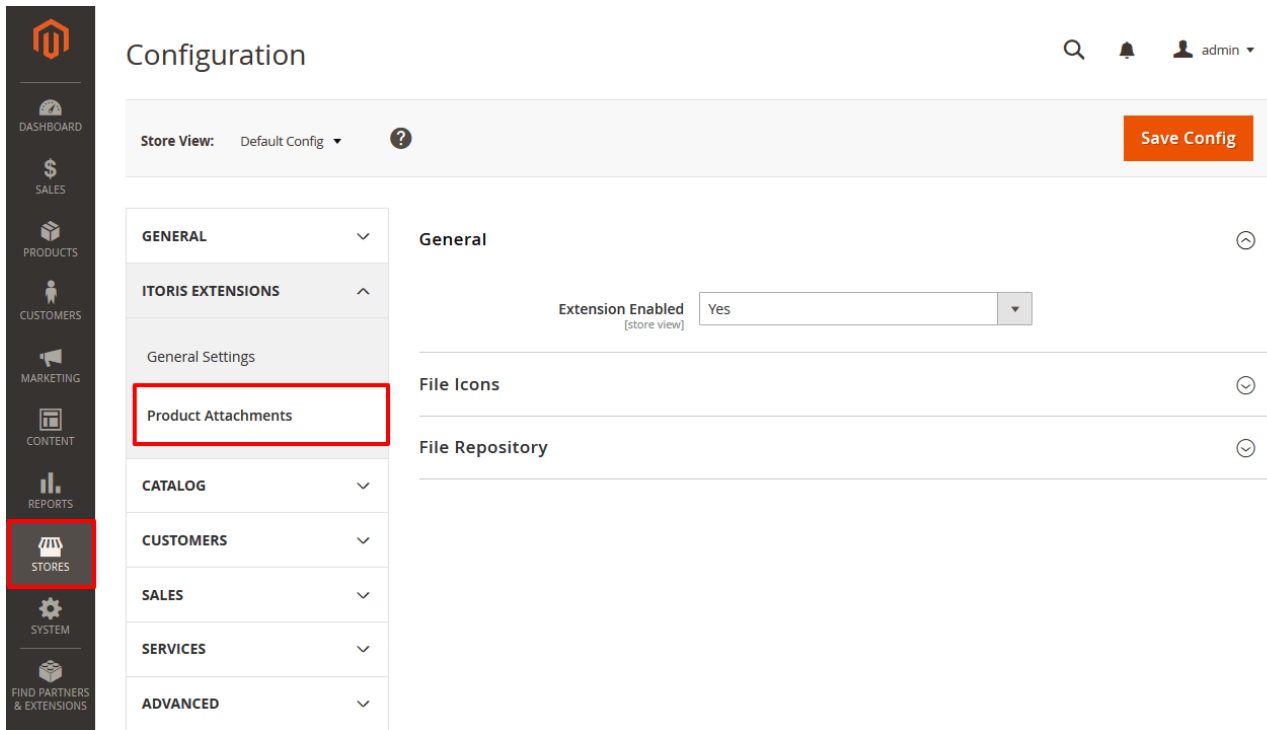

## 3. How to Use

### 3.1. Attachments Configuration

#### 3.1.1 General Settings

The main settings are available following **STORES > Settings > Configuration > ITORIS EXTENSIONS > Product Attachments**.

**Extension Enabled** – enables or disables the extension functionality.

The Product Attachments plugin also allows to configure the general setting for the entire store or a certain store view. Choose the store in "Store View" in the upper-left corner and save the changes.

#### 3.1.2 File Icons

The extension provides 23 popular file formats the icons of which are available in the current section. You can attach various types of downloadable files: ".7zip", ".asp", ".bmp", ".css", ".doc", ".docx", ".gif", ".gzip", ".html", ".jpg", ".js", ".mov", ".pdf", ".php", ".png", ".psd", ".rar", ".rtf", ".tar", ".txt", ".xml", ".xvid", ".zip". If the extension cannot detect the default format, the "Other" icon will be used instead.

The functionality includes ability to use default large or small file icons or upload custom icon design samples. To add a custom icon you can clear the "Use system" checkbox, click "Browse" and select necessary files. You are able to upload 64 x 64 pixels large icons or 16 x 16 pixels small icons.

### 3.1.3 File Repository

**Remove** - removes file from the repository and automatically unbinds it from all associated products.

Product: Mona Pullover Hoodie Unbind

Product: Hera Pullover Hoodie Unbind

File: **The Program.pdf** (857.02 KB) Remove

Product: Go-Get'r Pushup Grips Unbind

File: **Training Options.doc** (92.00 KB) Remove

Product: Go-Get'r Pushup Grips Unbind

### 3.2 Copy Attachments to Multiple Products

After the extension has been enabled the additional column "Attachments" appears on the product grid in Backend. You can drag and drop all necessary files or use the download button.

Catalog

Active filters: Type: Configurable Product Attribute Set: Top

98 records found

ID	Thumbnail	Name	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action	Attachments
67		Chaz Kangaroo Hoodie	Configurable Product	Top	MH01	\$52.00	0.0000	Catalog, Search	Enabled	Main Website	Edit	Files: 1 Drop all files here
83		Teton Pullover Hoodie	Configurable Product	Top	MH02	\$70.00	0.0000	Catalog, Search	Enabled	Main Website	Edit	Files: 0 Drop all files here
99		Bruno Compete Hoodie	Configurable Product	Top	MH03	\$63.00	0.0000	Catalog, Search	Enabled	Main Website	Edit	Files: 0 Drop all files here
115		Frankie Sweatshirt	Configurable Product	Top	MH04	\$60.00	0.0000	Catalog, Search	Enabled	Main Website	Edit	Files: 0 Drop all files here

If a bunch of products requires the same manuals, user guides, images or other files, the extension helps to copy attachments of a certain product and apply to multiple products in bulk. You can select several products in the list and pull down the "Actions" dropdown. Option "Copy Attachments 1 to Many" allows to apply the same files to the chosen products. After you choose the option, a popup requiring the product ID appears. The product ID specifies what product's attachments are to be copied from.

### 3.3 Add Attachments to Product

The extension allows to add and configure attachments separately for each product. You can find the "Product Attachments" section following: **PRODUCTS** > choose {some product} > **Product Attachments**.

#### 3.3.1 Settings

The section includes several settings: main settings, attachment collection and file uploading.

Title: The Program.pdf Customer Groups: ALL GROUPS

**Attachments Enabled** – enables or disables the current collection of attachments.

**Large Icons** – shows large or small file icons on Frontend.

**Show Title** – shows or hides the title of uploaded file(s).

**Show Comments** – shows or hides comments for each file.

**Show File Size** – shows or hides the size of uploaded file(s).

### 3.3.2 Attachment Collection

The "Attachment Collection" section allows to manage the visibility of uploaded files, change titles, add comments or limit access to particular customer groups.

After some attachments are added, you can change the position of each file by dragging and dropping it to the necessary place.

**Enabled** – shows or hides the attachment on Frontend.

**Delete** – removes the attachment from the collection.

The screenshot displays the 'Go-Get'r Pushup Grips' attachment collection interface. It features a sidebar with navigation links (Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, Find Partners & Extensions) and a top bar with 'Back', 'Add Attribute', and 'Save' buttons. The main content area is titled 'Attachment Collection' and contains two attachment entries. Each entry has a title field, a comment field, a customer groups dropdown menu, and a checkbox for 'Available only if product purchased'. The 'Training Options.doc' attachment is currently enabled, while 'The Program.pdf' is disabled. Below the attachments is an 'Upload Files' section with a dashed box and a download icon, indicating where to drop files. The interface also includes a sidebar with navigation links and a top bar with 'Back', 'Add Attribute', and 'Save' buttons.

**Title** – displays the current title of the uploaded file. You can enter a custom title for the particular attachment.

**Comment** – allows to add additional information about the file.

**Customer Groups** – limits access to the file for specified customer groups.

**Available only if product purchased** – makes the file visible on the Customer Dashboard after the product is purchased and order got status "Complete".

### 3.3.3 Upload Files

The extension allows to upload an unlimited number of files. The maximum allowed file size is determined by the server configuration and can be changed by variable `upload_max_filesize` in `php.ini`

There are several ways to upload files to the product:

#### 1. Drag and Drop to the Upload Box

You can drag chosen files and drop them into the "Upload Files" section or click button "Upload".

The screenshot displays the 'Go-Get'r Pushup Grips' product page. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area has a header with 'Go-Get'r Pushup Grips', a 'Back' button, and 'Add Attribute' and 'Save' buttons. Below the header is the 'Upload Files' section, which is highlighted with a red border. This section contains a dashed box with a download icon and the text 'Drop all files here. Max size 100MB each'. Below this is a file upload progress bar for 'Top 10 Strength Exercises.zip' (922.51 KB, 100%). Further down, there are options to 'pick up a file from the Repository' (with a 'Browse Repository' link) or to 'create attachment from URL' (with a text input field containing 'http://' and a 'Create' button). At the bottom of the main content area, there are three expandable sections: 'Images And Videos', 'Search Engine Optimization', and 'Related Products, Up-Sells, and Cross-Sells', each with a downward arrow icon.

## 2. Pick up the File from the Repository

All uploaded files are collected in the repository for the further quick usage. If necessary files are already stored there you can click link "**Browse Repository**". The repository table provides a search tool and ability to select files.

**ID** – specifies the file ID.

**File Name** – defines the original file name.

**# of Products** – specifies a number of products bound to the file.

**Select** – allows to add a file to the attachment collection.

The screenshot shows a web application interface with a sidebar on the left containing various menu items like DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled "File Repository" and features a search bar, a "Reset Filter" button, and a status "3 records found". Below this is a table with the following data:

ID	File Name	# of Products	Select
3	Product Care.docx	5	<a href="#">select</a>
2	Training Options.doc	1	<a href="#">select</a>
1	The Program.pdf	1	<a href="#">select</a>

## 3. Create Attachment from URL

The extension allows to create a file via a direct link entered in inputbox. After you add the link, click the "Create" button. The created attachment will be linked to the URL that adds flexibility to download the relevant file.

### 3.4 Attachments on Frontend

After the files are added to the product, the separate tab "Downloads" is created on Frontend. You can find a number of attachments available for each product next to the tab.

The extension allows to choose icons' sizes per each product. You can display either large or small icons on Frontend in the following ways:

### 3.5 Attachments on Customer Dashboard

If the product has hidden attachments available after the products' order is completed, the files will appear in the "My Downloads" section on the Customer Dashboard. You can also leave a custom message, comment or update below to notify customers.

The screenshot shows the LUMA Customer Dashboard. At the top, a grey header bar contains the text "Welcome, Liam! Liam Miller" with a dropdown arrow. Below this is the LUMA logo and a search bar with the placeholder text "Search entire store here...". A navigation bar lists categories: What's New, Women, Men, Gear, Training, and Sale. On the left, a sidebar menu lists account-related options: Account Dashboard, Account Information, Address Book, My Downloadable Products, **My Downloads** (highlighted with a red box), My Orders, Newsletter Subscriptions, Stored Payment Methods, Billing Agreements, My Product Reviews, and My Wish List. The main content area, titled "My Downloads", features a section for "Go-Get'r Pushup Grips". It displays a PDF icon, the filename "THE PROGRAM.PDF", the size "(857.02 KB)", and a "Download" button with a download icon. Below this, a message states: "Our invited specialists are glad to present the complete 2-week beginner's workout program."
