1. Introduction

The document is a User Guide for extension **Multiple Wishlists** created for Magento websites. It describes the extension functionality and provides some tips for a quick start.

The extension official page - <https://www.itoris.com/magento-multiple-wishlists.html>

The purpose of the Multiple Wishlists extension for Magento is to create an unlimited number of wishlists for different purposes. The extension allows customers to add products to new or existing wishlists on the product and catalog pages, homepage, search results, and checkout pages. By default Magento removes items from wishlists after adding them to cart. Using the extension the admin can allow customers to leave the items in the list. The extension also allows the users to stay on the current page where the product was added to the wishlist from in comparison to the default Magento.

The logged in customers can also create or rename wishlists with items on the customer's dashboard. The users can add products to the cart, delete, copy or move multiple products in bulk or individually between or to another wishlist. There is a possibility to add comments for each item, update product quantities or share the wishlists with third-parties.

The admin can manage all the wishlists from the Backend by adding, removing wishlists or products in a separate section for each customer. The admin can also allow or disallow the customers to edit the wishlists on the dashboard.

2. Installation

2.1. System Requirements

The extension works under Magento from 1.4.x and higher.

The extension works with Apache 1.3.x and higher, PHP 5 or higher, Linux or IIS.

2.2. Installation

Download the extension installation zip package from your account at <https://www.itoris.com/> and unpack it to the root of your Magento site by (S)FTP. Then flush cache in your Magento backend following **System > Cache Management**.

2.3. License

Please find the license agreement at <https://www.itoris.com/magento-extensions-license.html>

3. How to Use

3.1. General Settings

The general configuration is available following **System > ITORIS Extensions > Multiple Wishlists**. You can configure the general settings globally or per store view.

Extension Enabled – Yes/No. Enable or disable the extension.

After add to cart – allows to leave products in wishlists after adding items to the cart or remove products from wishlists within the out-of-the-box Magento functionality.

After wishlist selected – allows the customer to stay on the current page after the wishlist is selected or redirect the user to the customer's dashboard within the out-of-the-box Magento functionality.

Switch to mobile view if browser width less than (px) – 600 pixels are set by default. If the browser width is less than the entered value the website will be adjusted for the mobile view.

The screenshot shows the Magento admin interface with the 'Multiple Wishlists Configuration' page. The top navigation bar includes links for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. A 'Get help for this page' link is also present. On the left, the 'Current Configuration Scope' is set to 'Default Config' with a 'Manage Stores' link below it. The main content area is titled 'Multiple Wishlists Configuration' and features a 'Save Config' button. The 'Settings' section contains four configuration items:

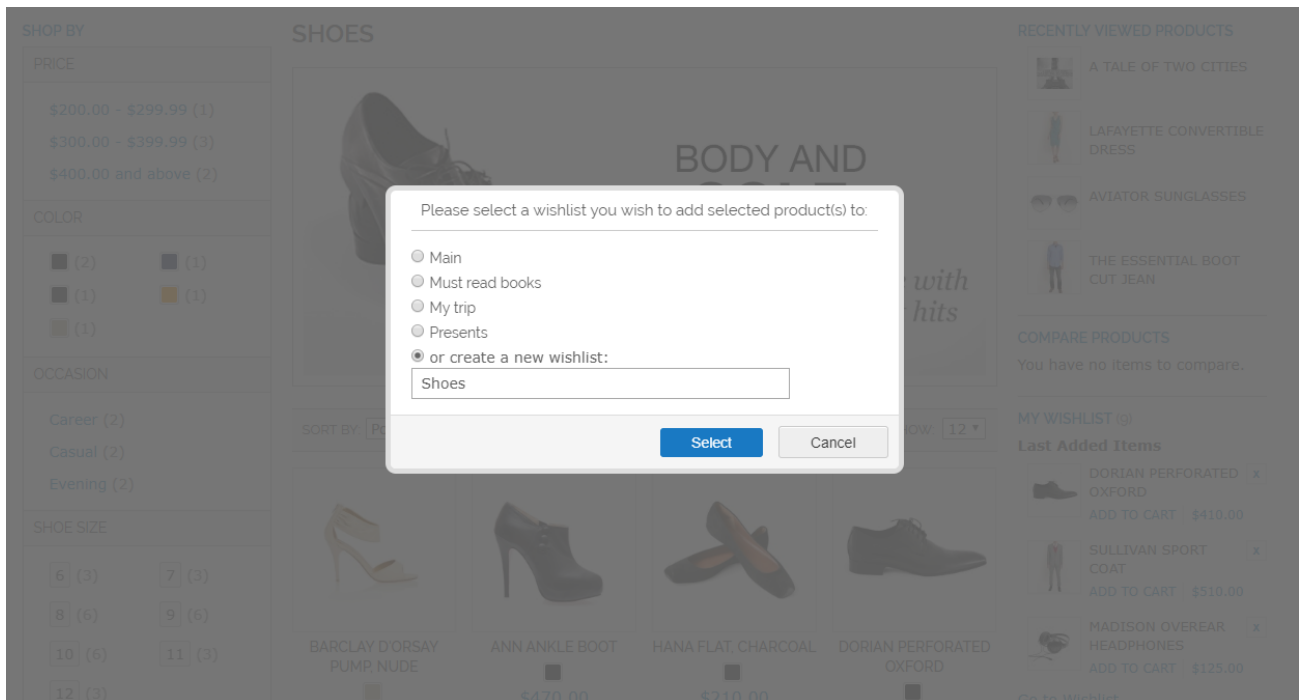

Settings	
Extension Enabled	Yes
After add to Cart	Remove product(s) from Wishlist
After wishlist selected	Redirect to wishlist
Switch to mobile view if browser width less than (px)	600

3.2. Wishlists on Frontend

3.2.1 Add Wishlists

The extension allows to add a selected product to the "**Main**" wishlist by default or create a custom wishlist. If there are already created wishlists, the customers can choose one of them and click the "**Select**" button. The item will be added to the chosen wishlist. The popup with the existing wishlists appears on every page when the product is added to the wishlist.

The customers can also create a new wishlist using option "**or create a new wishlist**". After the customer enters the title, the "**Select**" button will apply the changes. The wishlist with the product will be created automatically. The "**Cancel**" button discards the changes and closes the popup.

3.3 Manage Wishlists on Frontend

The customers can create and manage the wishlists following **MY ACCOUNT > MY WISHLIST**.

3.3.1 Create, Rename or Remove Wishlists

The customers can create an unlimited number of wishlists with an unlimited number of products. All wishlists are organized in tabs allowing to separate wishlists for different occasions.

To create a new wishlist, enter a new title next to the **CREATE WISHLIST** button and click the button.

To rename the wishlist, enter a new title into the **"Wishlist"** field and click the **RENAME** button.

To delete the whole wishlist, click button **DELETE WISHLIST**.

To apply the mass actions, do the following:

1. Mark checkboxes next to the necessary products.
2. Select a wishlist to apply one of the actions to.
3. Choose one of the following actions:
 - A. To add multiple products to cart, click button [ADD SELECTED TO CART](#).
 - B. Click the [DELETE SELECTED](#) button to remove multiple items in bulk.
 - C. Choose a wishlist in dropdown and click [COPY](#) to copy multiple items to.
 - D. Choose a wishlist in dropdown and click [MOVE](#) to move multiple items to.

3.6 Wishlists Configuration in Backend

All wishlists can be created and managed from the backend.

The settings are available following: **Customers > Manage Customers > {select a customer} > Customer Information > Wishlist.**

The admin can add an unlimited number of wishlists for each customer. All the existing wishlists are organized in sections displaying a wishlist title and editing availability.

3.6.1 Create, Rename or Remove Wishlists

You can add a wishlist in the customer settings by entering a title into "**Wishlist Name**" and clicking the "**Add Wishlist**" button below the field.

Manage Wishlists	
Wishlist Name: <input type="text"/>	
<input type="checkbox"/> Manageable for Customer	
<button>Add Wishlist</button>	
Main	(manageable for customer) <button>edit</button>
Must read books	(manageable for customer) <button>edit</button> <button>delete</button>
My trip	(manageable for customer) <button>minimize</button> <button>delete</button>
<div>My trip</div> <div><input type="text"/> <button>Rename</button></div> <div><button>add product</button></div>	
Dorian Perforated Oxford remove	
Sullivan Sport Coat remove	
Presents	(manageable for customer) <button>edit</button> <button>delete</button>
Shoes	(manageable for customer) <button>edit</button> <button>delete</button>

The admin can rename the existing wishlists. Enter a new title in the field and click the **Rename** button. The changes will be applied automatically.

To remove the wishlist with products, click the **delete** button above the list.

To collapse the wishlist, click the **minimize** button.

3.6.2 Items Configuration in Wishlists

You are able to add or remove items for each wishlist.

To add products to the wishlist, click the **add product** button. Then find products in the appeared popup and click the **Select** link.

To delete the particular product from the wishlist, click the **remove** link.

The screenshot shows the Magento Admin Panel with a 'Customer Information' sidebar on the left. The main content area displays a 'Add Product' popup window. The popup has a search bar at the top and a table of products. The table has columns: ID, Product Name, SKU, Price, and a 'select' link. The products listed are:

ID	Product Name	SKU	Price	Action
916	Custom Roll Labels (900 per roll)	roll-labels-900	\$97.00	select
915	Custom Roll Labels (700 per roll)	roll-labels-700	\$84.00	select
914	Stella serving bowl	Stella serving bowl	\$3.00	select
913	Mc Mug	Mc Mug	\$0.50	select
912	Glass Jar with lid	Glass Jar with lid	\$12.00	select
911	Custom Roll Labels (500 per roll)	roll-labels-TC41	\$58.36	select
910	Custom Earrings 02	Custom Earrings 02	\$2.13	select
909	Custom Earrings 01	Custom Earrings 01	\$1.65	select
908	Plain White Silicone Wristband	HED-452	\$7.00	select
907	Solid White Can	HK4-4572	\$10.50	select

The background shows the 'Customer Information' sidebar with links like 'Customer View', 'Account Information', 'Custom Registration Fields', 'Addresses', 'Orders', 'Billing Agreements', 'Recurring Profiles (beta)', 'Shopping Cart', 'Wishlist', 'Newsletter', 'Product Reviews', and 'Product Tags'. The main product list table at the bottom has columns: Product Name, User Description, Qty, Added From, Wishlist name, Date Added, Days in Wishlist, and Action. The 'Action' column contains 'edit' and 'delete' links.

3.6.3 Editing Availability for Each Wishlist

You can allow or disallow the customer to edit the wishlists. Mark checkbox "Manageable for Customer" to allow wishlists' editing. If the customer has the permission to edit the list, the "manageable for customer" title will become visible. If the customer has no permission, there will be no title.
